AWESOME!!! This 2300+ sq ft, 3 Bedroom 2 Bath ranch style home is located in beautiful Glenwood Estates and overlooks the incredible subdivision park!! There have been many updates to this custom built brick home.(ask your realtor for a detailed list)! Extra wide hall and doorways make this home especially easy for anyone needing assistance or with mobility issues. The open living/dining room floor plan makes entertaining a breeze! There is a huge amount of storage space in the oversized third car garage and laundry/mud room... and the game/family room addition is the perfect place to hang out with family and friends!! Make your appointment to see it today!!
